

THREE PHASE DOL STARTER WITH WATER LEVEL CONTROLLER

Ordering Information :

Model No.	TPDSW 40
Load Capacity	0.5 HP to 5 HP
Input Supply	R, Y, B, 3 Phase (L-L) (10 VAC ~ 650 VAC)
Sensor	S. S. Carbon & Float Switch

FEATURES

- Digital Display Indicate Voltage & Ampere
- Micro Controller Based Technology
- Ampere Protection 1.0 AMP ~ 25.0 AMP
- Voltage Protection 250 VAC ~ 490 VAC
- Electronic Start / Stop Push Button Facility
- Stable Performance and Easy Mounting
- Industrial Level of EMC Test and Reliability
- High & Low Voltage Protection.
- Auto / Manual Mode
- Over Load Protection
